to start or join the Zoom meeting.

**About the Topic:** AI (Artificial Intelligence) is transforming our world – from Voice Assistants to healthcare, smart homes, and everyday conveniences. For senior citizens, understanding AI can open doors to safer living, improved communication and easier access to essential services. The speaker will explain AI in simple terms, demonstrating how technology can be a trusted companion rather than a challenge.

Join us for an informative and interactive session that will help you explore the friendly side of technology and discover how AI can enrich life in your golden years.
